

hello...

...and welcome to the most popular university in the UK with one of the largest selections of courses.

Rather than weighing you down with lots of information about all of these, this guide aims to introduce you to The University of Manchester and tell you how to find out everything about our courses and the aspects of student life that you're interested in.

excellence

The University is one of the best performing universities in the country. We've got a distinguished academic history and big plans for the future.

We attract the best teachers and scholars and our innovative courses and academic excellence go hand-in-hand with our international status as a leading research institution.

on campus

An ongoing £630 million building programme means that flagship buildings, the highest-tech labs and lecture theatres are joining our iconic Victorian architecture.

You'll find one of the best-resourced libraries in the country, great welfare services and the largest students' union in the UK - home to the Academy, winner of the 'Best Entertainment Venue in Manchester'. There's also an impressive range of sports facilities and even our own world-class museum, art gallery and theatre.

a place to live

Finding a place to stay isn't a problem at Manchester. Unlike at many universities, all new undergraduate students at The University of Manchester are guaranteed a place in one of our flats or halls of residence.

Most accommodation is either on campus or within a mile of it, in bustling student-friendly neighbourhoods.

support

We have made a multi-million pound investment in our support services so no matter what the difficulty, the University has a wide range of people on hand to help you find a solution. We have a University Counselling Service as well as a dedicated Disability Support Office to provide support if you have additional needs which affect your study. We also have a range of financial support packages to ensure that you have the opportunity to study here whatever your circumstances.

an exciting city

The University is at the heart of one of the most dynamic and cosmopolitan cities in Europe. Manchester has great restaurants and a lively bar and club scene. It has more than 50 great galleries and museums and is a shoppers' paradise. Some claim that we're the centre of the world musically. With a roll call from Joy Division to the Hallé orchestra who can argue? Manchester's also famous for its sporting greats – and not just Manchester United, we've also got top level rugby, cricket and cycling.
